AASW Growing with Confidence

Our Mission

AASW endeavours to unleash the potential of disadvantaged working women and their children to succeed in life through providing education, health care, livelihood skills and community development services. Child and gender development and social welfare is fundamental to our work. We seek a world of hope, inclusion and social justice, where poverty has been overcome and all people.

Our Vision

AASW envisions a society where all children and women enjoy secure, healthy, enlightened lives and responsive environment that promote their social, economic, cultural, and moral development.

FROM THE DIRECTOR'S DESK

Arshi Association for Social Welfare (AASW) enters its fourth year (2024) with a remarkable confidence. With sharpened clarity on approach and improved knowledge and talent base, the organization is poised to leap ahead to cover other untouched marginalized children. With the turn of this year, AASW feels proud to present its Annual Report 2023-2024, which provides you a glimpse of what we did and achieved this year through our synergized effort.

This year too, reaching the most marginalized section of our society, that is, Empowered Women, Girl Child through Skill Development, Aware about health issue” has been our primary goal. In the process, we successfully touched 1619 young lives through seven projects spread across the All Districts of the State.

The CSR bill, which passed the Parliament in 2013, has begun to affect the work of NGOs. It came to us as a significant help this year. As the AASW's cost-effective strategies are well-suited to the provisions of the CSR Act, I hope that our work with street children will continue to attract corporate organizations in the same manner.
